

- What is hot and what is not.
 TPA-RRG captures the inevitable movement of stocks into and out of favor.
- Scores and ranking
 Clients can quickly see which stocks are showing the <u>best and worst relative</u>

 <u>strength</u> characteristics. TPA found that using RRG's was very beneficial, but took some time to parse through, so we simplified the process by creating a score for each stock and sector.
- The best of both worlds RRG & TPA
 Now, clients can use <u>TPA-RRG scores and rankings</u> to identify stocks that are not only moving into favor, but are also technically positive.
- TPA-RRG analyzes every stock in the Russell 1000 and 25 major sector & subsector ETFs

THE REPORT

TPA-RRG Weekly Commentary

Top 20-Bottom 20, Sectors, Market

As TPA has been saying for the past 2 months, sector and stock outperformance will be driven by rates. It will be driven in 2 ways:

- 1. Interest-rate sensitive areas of the stocks market will thrive and ...
- 2. ...TECH stocks, which have become overweighted in most portfolios will suffer.

First, the 10-Year is moving as TPA has predicted. After breaking below 4%, the 10-Year is headed to long-term support at the 3.35% level.

US 10-YEAR YIELD

Sectors – the top 2 sectors are Homebuilders and REITs. The bottom 2 sectors are TECH and SEMIs.

Stocks:

- The top 20 are populated by REITs and Financials (interest-rate sensitive.
- The bottom 29 stocks are populated by TECH

TOP TECH stocks have been particularly vulnerable. The NY FANG index is down 8.8% in the past 12 days, whereas the S&P500 is only down 3.3%. (see the NY FANG index below).

NY Fang and S&P500 Index in the past 12 days.

Relative Rotation Graphs (RRG) – explanation video (Less than 4 minutes)

What is TPA-RRG. What are RRGs.

RRG – written explanation

Turning Point Analytics Disclaimer

Turning Point Analytics (TPA) is only one of many tools that an investor should use to make a final investment decision. TPA is an overlay on top of a client's good fundamental or macro analysis. TPA does not create or provide fundamental analysis. The information in this communication may include technical analysis. Technical analysis is a discipline that studies the past trading history of a security while trying to forecast future price action. Technical analysis does not consider the underlying fundamentals of the security in question and it does not provide information reasonably sufficient upon which to base an investment decision. Investors should not rely on technical analysis alone while making an investment decision. Before making an investment decision, investors should consider reviewing all publicly available information regarding the security in question, including, but not limited to, the underlying fundamentals of the security and other information which is available in filings with the Securities and Exchange Commission. The information and analysis contained in reports provided by TPA are copyrighted and may not be duplicated or redistributed for any reason without the express written consent of TPA. The information in this communication is for institutional or sophisticated investors only. By accepting this communication, the recipient agrees not to forward, and/or copy the information to any other person, except as permitted, or required by law. TPA does not quarantee accuracy or completeness. TPA is a publisher of technical research and has no investment banking or advisory relationship with any company mentioned in any report. Reports are neither a solicitation to buy nor an offer to sell securities. Past performance is in no way indicative of future results. Opinions expressed are subject to change without notice. TPA will provide, upon request, the details of any past recommendations. TPA's analysis and recommendations should not be used as the sole reason to buy or sell any security. TPA may compensate brokers and intermediaries for sales and marketing services. You understand and acknowledge that there is a very high degree of risk involved in trading securities and/or currencies. The Company, the authors, the publisher, and all affiliates of Company assume no responsibility or liability for your trading and investment results. It should not be assumed that the methods, techniques, or indicators presented will be profitable or that they will not result in losses. Statements, data, and analysis made by TPA or in its publications, are made as of the date stated and are subject to change without notice. TPA and/or its officers and employees may, from time to time acquire, hold, or sell a position in the securities mentioned herein. Upon request, TPA will furnish specific information in this regard. TPA will not be held liable for losses caused by conditions and/or events that

are beyond TPA's control, including, but not limited to, war, strikes, natural disasters, new government restrictions, market fluctuations, and communications disruptions.
